Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The references in combination does not teach and suggest a reasonable motivation for establishing a prima facie case of obviousness with regard to an optical connector wherein the short fiber portion is bent by the second optical fiber in the connected state of the optical connector and is brought into contact with the second optical fiber by the resilient force of the short fiber portion. Examiner cannot find a motivation wherein one of ordinary skill in the art would desire to bend a fiber portion in the connective state wherein the contact force is created by the resilient force of the short fiber portion. Therefore, claims 1 and 12 are allowed over the prior art and dependent claims 3-10 are allowed by virtue of the dependency on allowed independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erin D. Chiem whose telephone number is (571) 272-3102. The examiner can normally be reached on Monday - Thursday 9AM - 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank G. Font can be reached on (571) 272-2415. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
